The Death of Leonard Bame.

Leonard Bame of this city died at 4 o'clock Sunday afternoon last. Consumption was the cause of his death. The funeral services took place Monday afternoon at the Christian church under the auspices of Eagle Fire company No. 1. The deceased was born in Illinois in 1870. He, with his mother, stepfather and three sisters, came to Cloverdale in 1885, at which place his mother died soon after their arrival. The rest of his people returned east, and Leonard found a home with Mr. and Mrs. J. F. Hoadley. After attending the public schools for three years he came to this city in 1888 with Mr. and Mrs. Hoadley, with whom he has lived most of the time since, and to whom he was most devotedly attached. He was a member of the local fire company and was respected by them all. They showed their appreciation of the deceased in a most brotherly way by looking after every detail of the burial service. The entire community was stirred in sympathy for the young man, dying, as did, without relatives near, though he found in Mr. and Mrs. Hoadley true and tender parents. L. F.

The Knights-Templar Excursion.

The Knights-Templar excursion to Santa Rosa Sunday last was an unqualified success. About one hundred excursionists went from this city, and the number was augmented at Hopland, Cloverdale and Healdsburg. The Easter services of the Templars were held in the Athenæum, and were witnessed by the creme de la creme of Santa Rosa society. The visiting knights were entertained by the Santa Rosa commandery in its usual delightful and hospitable manner. A banquet was given to the visitors at 12:30 and the services commenced at 2 o'clock. A cold lunch was served previous to the departure of the knights for their homes in Petaluma and Ukiah. The literary beauties of the services are very highly spoken of by visiting knights, and the hospitality with which they were received will ever remain a pleasing memory.

The Superior Court.

The following divorces were granted by Judge Mannon Monday last: Ernest C. Winkler from Martha J. Winkler, infidelity; Belle Christy from Jasper C. Christy, cruelty, minor child awarded to plaintiff; Joaquin D. Coucells from Anna G. Coucells, desertion.

The trial of John Valley, burglary, set for May 12; Greenville Lambert, incest, May 13.

Monday next the trial of John Crawford vs. Alex McNab et ux will begin before Judge Mannon. The case grew out of a dispute over boundary lines between parties to suit.

The suit of H. T. Hatch against Seymor Marks was continued Monday last by Judge Dougherty of Santa Rosa to April 26.

White Redwood.

H. B. Smith and Rufus Lucas, who recently made a trip through the Indian creek country at the head of the Navarro, made a remarkable botanical discovery. While investigating the flora in that section they found a grove of white redwoods, as paradoxical as the terms may seem. The white sequoia sempervirens are precisely similar to the redwood except in the color of the wood, which is of a pure white and of wax like texture. Specimens of the wood are now on exhibition at the abstract bureau, and are regarded with great admiration by Emmett Donohoe, and other well-known timber experts.

All visiting Odd Fellows and Rebekahs are invited to attend the entertainment and ball at Marks operahouse on the evening of April 26, the 78th anniversary of Odd Fellowship in America. An excellent program has been arranged and all invited are assured an enjoyable evening. Members who wish to invite friends can get invitation cards at the recorder's office, the school superintendent's office, and the office of Smith & Donohoe. Invited guests must present their card at the door. Members will meet at Odd Fellows hall at 7:30, and march to the operahouse.

Want a Mail Route to Boonville.

According to The Reveille the petition being circulated asking the postoffice department to grant a continuous mail service between Cloverdale and Boonville is meeting with a cordial reception. The change is needed and the people are rising en masse to give this expression of their approval of the movement. A similar petition is also being circulated at Boonville and one along the route. The petitions are being signed by every citizen along the route who are eager to have the request granted.

POTTER MANGANESE.

EXPERTS PRONOUNCE THE DEPOSITS VERY VALUABLE.

A Lake County Man Arrested for Having Deer Meat in His Possession—A Bovine Fatality—McGinty Saunders' Runaway. A Malicious Halfbreed.

Eugene Holbrook was down from Potter Monday and feels greatly encouraged over the mineral outlook in that district. The deposits of manganese recently discovered on the Busch ranch, four miles northwest of Potter, were examined Saturday last by Fred Mathayas, the expert of the state mining bureau. Mr. Mathayas expresses himself as greatly pleased with the discovery, and is confident that the ledge is a very valuable one. It has been traced for a distance of about two miles and is very well defined. Hitherto manganese ore has been found only in broken ledges, and consequently the supply on the coast has not been sufficient to meet the local demand. The Potter ledge promises an unlimited quantity of the mineral. If the discovery develops as expected another very important industry will be added to the material resources of Mendocino county.

Mr. Holbrook has also great faith in a quartz discovery recently made near that town. It is of black and white character, and apparently carries both gold and silver. Samples have been sent below for assay and returns are daily expected.

SOLD DEER MEAT.

A Gentleman From Lake County Arrested for the Offense.

S. F. Arant of Lake county was arrested Tuesday by Constable Hughes and charged with violating the game laws. According to the arresting officer Arant had offered dried deer meat for sale. After hearing the evidence Justice Critchfield held that the complaint did not conform to the new law, and the prisoner was therefore discharged.

It is said that deer have been slaughtered by the hundred during the past month or six weeks. The severe snowstorms drove the animals down from the heights of San Hedrim, and they were killed by pot hunters in vast numbers. It seems as though there should be some method by which the violaters of the game laws could be reached and punished.

Ginty's Runaway.

Ginty Saunders was presented with a fine colt by Judge Mannon last week and has been spending his spare time lately in teaching the animal the duties of a common carrier. He mounted his horse Saturday last at his home in the Wagonseller addition, and in about three minutes was down at the racetrack. The colt came down State street on a dead run, Ginty freezing to him like a wild Comanche. When the racetrack was reached the colt stopped for a drink and Ginty promptly dismounted, and regained control of the fiery steed. The colt is now as gentle as a kitten.

A Bovine Fatality.

A cow belonging to J. A. Ford was out prospecting for fresh provender on Ackerman creek Saturday last. The animal discovered what seemed to be a particularly succulent bunch of herbage on the further side of the stream, and was in such a hurry to investigate the enchanting development that she forgot the creek. The animal toppled over the bank and landed on her head. She was immediately converted into beefsteak.

A Malicious Halfbreed.

William Graves, a halfbreed of Redwood valley, was arrested by Constable Harbert Wednesday last on a charge of malicious mischief. Graves was accused by E. Do You Want to Stop Drinking?

Inquired a young gentleman of a friend who had long been addicted to the liquor habit. "I certainly do," replied his friend. "Why do you ask?" "Because, if you do why don't you stop?" "That's easier said than done," responded the other. "I have tried time and again, but it's no go. I can't withstand the temptation. It's utterly impossible for me to resist. I don't possess the will power you did when you quit." "There was no exhibition of will power on my part," replied the other. "I found it as useless as yourself to resist the temptation; but I wanted to stop, so I experimented with the Fittz Alcohol Cure. It's easy to take: it builds up the system, and after the first five days the desire all leaves you. Consult Dr. G. W. Stout."

Who does not know women and young girls who are continually in tears? Who always see the dark side? Who have frequent fits of melancholy without any apparent cause? The intelligent physician will know that it is some derangement of the complicated and delicate feminine organs. The young girl suffers, bodily and mentally, in silence. There is undue weariness, unexpected pain, unreasonable tears and fits of temper. Dr. Pierce's Favorite Prescription exerts a wonderful power over woman's delicate organism. It is an invigorating tonic and is specific for the peculiar weaknesses, irregularities and painful derangements of woman. Careless, easy-going doctors frequently treat their women patients for biliousness, nervousness, dyspepsia, liver or kidney troubles, when the real sickness is in the organs distinctly feminine, and no help can come till they are made perfectly strong by the use of Dr. Pierce's Favorite Prescription. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page common sense medical adviser, illustrated.

A VERITABLE CORKER

THE NEW PRIMARY ELECTION LAW KILLS THE BOSSES.

Primary Elections Must Be Held in January of Each General-Election Year. Election Officers to Be Drawn Like Trial Jurors.

All primary elections for the nomination of any candidate for any office, state, district, county or city, or to elect delegates to a convention to make such nominations, shall be held under this law.

A state convention is to nominate candidates to be voted for by the entire state; a district convention is to nominate candidates for congress, board of equalization or railroad commissioners; all other conventions are local conventions. In presidential election years, all primary elections for all parties to elect delegates to a state convention, which selects delegates to a national convention and which may at its option divide itself into district conventions to nominate congressmen, etc., shall be held on the last Tuesday of March of each such year and at no other time.

In 1898 a general primary election for all parties to elect delegates to the several state and district conventions to be held that year, shall be held on the second Tuesday in July and every four years thereafter on that day and at no other time. The board of election commissioners of each county shall fix a day or days for primary elections for delegates to a county, city or other local convention to nominate county or city officers. The board shall make this order at least sixty days before the election for which such conventions are to be held and notice shall be given by publication in one newspaper published in such county or city.

All political parties or organizations of electors desiring to hold conventions to make such nominations, shall, through the chairman and secretary of their respective committees, make written application therefor to the board at least twenty days before the day of the primary election, setting forth the name of the political party and the fact that it desires to hold such convention.

Any political party which at the last preceding election did not poll at least three per cent of the entire vote in the political division for which nominations are sought to be made, may file a petition or petitions, with the board, signed by at least three per cent of the votes cast in such political division at the last preceding election, whereupon the board shall authorize such party to hold its primary election with, and in like manner as, the other political parties.

In the month of January of each year in which a general election is to be held, the board shall select from the precinct register the names of at least fifteen electors residing in such precinct, from each of the then existing political parties, in as equal proportions as practicable and write such names on separate pieces of paper and fold the same so the names cannot be seen, and put them in separate packets (to be sealed and marked for identification) and securely locked up for safe keeping.

Twenty days before the primary the board shall publicly open said packets one at a time, and draw (as jurors are drawn) the name of one person who shall be inspector of the primary in such precinct; the next two names drawn shall be the judges, and the next two, clerks of such primary; provided, in the case of judges and clerks, if the second name drawn shall be of the same political faith as the first, that name shall be set aside and another drawn, the idea being that the two judges and the two clerks shall be of different parties.

The clerk of the board shall publish in some local newspaper at least fifteen days prior to such primary, notice, with other information, of such primary and shall also notify each person selected as an election officer. It is the duty of each person chosen as such election officer to serve unless excused by the board for good cause and failure or refusal to act unless so excused is made a misdemeanor or punishable by fine of not less than $25 and not more than $200, or by imprisonment for not less than five nor more than twenty days, or by both such fine and imprisonment.

All persons serving as primary election officers shall be exempt from jury duty for the term of one year thereafter.

Notice of each convention shall be given by the central committee of each political party by publication, within ten days after the board have issued the call for the primary election.

No person shall be eligible as a delegate to any convention who has been employed in any official capacity in the service of the United States or of the state, county or city, within ninety days preceding such primary, and any such ineligible person acting as a delegate in any convention is guilty of a misdemeanor and, on conviction, punishable by a fine of not less than $50 nor more than $300, or by imprisonment in the county jail not less than twenty-five nor more than one hundred and fifty days, or by both. No person shall be allowed to hold more than one proxy at any convention. The board shall furnish as many ballot boxes at each precinct where the primaries are held, as there are parties entitled to participate at such primary, and the ballots cast by each party shall be deposited in the ballot box furnished and marked for such party.

Ballots must be on the paper selected by the clerk of the board and must be rejected if on any other kind of paper.

There shall be at least one polling place for a primary for each three precincts at the most convenient place to be selected by the board; the polls to be open from 7 o'clock a. m. to sunset.

The primary election and canvass of the votes must be public.

Any person, at such primary, who shall vote illegally or attempt so to vote, shall be subject to the same punishment as at a general election and if the election officers at such primary shall knowingly permit any person to vote after being challenged, who shows by his examination that he is not entitled to vote, they shall be guilty of a felony, punishable by not less than one nor more than five years in the state's prison.

The primaries for all political parties shall be held at the same time and at the same respective places, and each party may determine for itself the number of delegates and how many conventions it will hold for nominating its various candidates but all candidates to be elected within a given territory must be nominated in the same convention. Any person or persons desiring to circulate a ticket at a primary shall print and furnish the same at their own expense, on paper selected by the clerk of the board.

The law is made applicable to elections in incorporated cities.

Any person entitled to vote in any precinct may be a candidate for election as a delegate from such precinct. Returns are to be made to the county clerk who shall canvass the same and issue certificates of election to such persons who receive a plurality of the party votes cast for such delegates as shown by the returns. The board of supervisors shall appropriate from the general funds a sufficient sum for holding such primary elections. If in any city or county there shall not be by law any board of election commissioners then all duties enjoined therein upon the board of election commissioners shall be enjoined upon and performed by the common council of a city or the board of supervisors of a county; and if there is no such board of election commissioners the duties enjoined on the clerk of said board shall be enjoined upon the clerk of a city or the county clerk, as the case may be.

Any act denounced as an offense by the general laws concerning elections shall also be an offense in all primaries and punishable in the same form and with like penalties.

No candidate nominated by a political convention shall have his name placed on the official ballot, unless within ten days after the making of such nomination he shall file an affidavit that he has not directly or indirectly expended, nor has any person in his behalf or with his knowledge expended any sum of money to secure such nomination, in excess of the amount now allowed by law to be expended therefor, and shall file an itemized, verified statement of all such expenditures.

No candidate of any political party can have his name printed upon any ballot to be voted for as a candidate unless he shall have been nominated by a convention composed of delegates chosen as provided by this act, but no interference with the present law is made in the case of nominations by petition, but such nominees can have no other designation upon a ballot than the word "independent."

Electioneering within one hundred feet of the polls at a primary is prohibited.

The act took effect immediately upon its approval.

A RETIRED BUSINESS WOMAN

A Page From Her History.

The important experiences of others are interesting. The following is no exception: "I had been troubled with heart disease 25 years, much of that time very seriously. For five years I was treated by one physician continuously. I was in business, but obliged to retire on account of my health. A physician told my friends that I could not live a month. My feet and limbs were badly swollen, and I was indeed in a serious condition when a gentleman directed my attention to Dr. Miles' New Heart Cure, and said that his sister, who had been afflicted with heart disease, had been cured by the remedy, and was again a strong, healthy woman. I purchased a bottle of the Heart Cure, and in less than an hour after taking the first dose I could feel a decided improvement in the circulation of my blood. When I had taken three doses I could move my ankles, something I had not done for months, and my limbs had been swollen so long that they seemed almost putrified. Before I had taken one bottle of the New Heart Cure the swelling had all gone down, and I was so much better that I did my own work. On my recommendation six others are taking this valuable remedy."—Mrs. Morgan 569 W. Harrison St., Chicago, Ill.

Dr. Miles' New Heart Cure, a discovery of an eminent specialist in heart disease, is sold by all druggists on a positive guarantee, or sent by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid.
